PSAT UNIVERSAL Ps

PSAT UNIVERSAL Ps is a static adaptor for virtually ANY KIND OF AIRCRAFT.

PSAT UNIVERSAL Ps is very easy to use on the plane:

- power ON the Suction Unit
- place the Universal adapter on the aircraft and adjust the Ps port
- release the Security Valve (blue): You are ready to test your static port !

Pneumatic insulation is made with rubber tube. PSAT UNIVERSAL Ps is fitted with a quick connector, which allows to use the adaptor as a cap for special tests.

PSAT UNIVERSAL Pt

The Universal Pitot Tube Adapter is a revolutionary product that will let you test virtually any kind of dynamic port (Pt) on your aircraft.

PSAT UNIVERSAL Pt is very easy to use:

- place it around your pitot tube and tighten the ring
 - you are ready to test your dynamic (Pt) port !
- PSAT UNIVERSAL Pt is fitted with a quick connector, which allows to use the adaptor as a cap for special tests.
