Cobra Systems site gets a makeover

We are proud to announce the official redirection of the Cobra Systems website into ateq-aviation.com effective from 29th June 2022.

Cobra Systems is the leading American manufacturer of Pitot/Static adapters, serving the world's Commercial, Corporate and Military Aircraft. Cobra Systems has been an ATEQ Aviation brand since 2018.

ATEQ Aviation is now the only provider, offer a complete range of pitot-static testing solutions, including complete adapter accessory kits, air data sensor covers and hose control consoles and Pitot/Static Test Sets!

With more than 3000 references, you can now find the entire Cobra Systems product catalogue on our website www.ateq-aviation.com. Simpler and more intuitive, thanks to our search bar you can easily find all the references of our products, but also find equivalents to others brands. The Cobra Systems sales team remains at your disposal for any request.

Using innovative technology and the highest quality parts - as well as adhering to ISO 9001:2015 standards - ATEQ & Cobra Aviation, Inc. provides pitot/static test adapters to the entire ATEQ Aviation family, encompassing over 450 aircraft.
