

PRESS RELEASE

ATEQ AVIATION REFINES ITS AIRCRAFT MAINTENANCE OFFERING ADDING RED KEVLAR® PITOT PROBE COVERS

Author: Sandra Kadded

Publication : for immediate release

(Les Clayes-sous-Bois – France, January 2024) – ATEQ Aviation, a pioneer in aviation technology, proudly unveils its latest consumable offering in aircraft maintenance with the launch of a cutting-edge range of **pitot probe covers**, setting a new standard for quality, durability, and performance in the industry.

Crafted with the highest quality standards using Red Kevlar®, these pitot probe covers redefine excellence, offering a suite of unparalleled features and benefits that cater directly to the needs of aircraft maintenance professionals:

UNRIVALED QUALITY STANDARDS

Made with Red Kevlar®, ensuring unmatched strength and durability even in the most extreme conditions on tarmac or in a hangar.

Rigorously tested to withstand extreme temperatures, remaining heat temp compliant and resistant to melting, setting a new benchmark in safety and reliability.

SUPERIOR PROTECTION

Water-repellent and condensation-free design ensure optimal functionality even in adverse weather conditions. Chemical and abrasion-resistant construction guarantees longevity and uncompromised performance.

AIRCRAFT SAFETY

Abrasion-free material safeguards the aircraft body, eliminating the risk of damage during use. Customized phosphorescent highly visible streamers enhance visibility, ensuring enhanced safety during maintenance operations.

APPROVED BY INDUSTRY LEADERS

ATEQ Aviation's pitot probe covers have been rigorously vetted and approved by leading airlines and operators, underscoring their reliability and trustworthiness. One of the main players in global freight has already referenced our pitot covers.

COMPREHENSIVE SOLUTION

ATEQ Aviation stands as the sole supplier offering a complete solution for pitot probe sensors, providing not only top-notch covers but also a comprehensive air data testing solution.

With our slogan "we test you fly", we ensure that every product meets the highest standards before reaching the aircraft, prioritizing safety above all. Quality you can trust, we've got you covered.

"Our mission at ATEQ Aviation has always been to innovate and provide solutions that surpass industry standards," stated Gabriel Nativel, Aviation division Global Director at ATEQ. "These Red Kevlar® pitot probe covers embody our commitment to excellence, safety, and reliability, offering a superior choice for aircraft maintenance professionals worldwide."

Adding this new consumable to its portfolio ATEQ Aviation aims at transforming aircraft maintenance procurement, offering a blend of quality, innovation, and cost-effectiveness that redefines industry expectations.

ABOUT ATEQ AVIATION

ATEQ Aviation is a worldwide manufacturer of automated testers for all types of aircrafts. To assist aviation manufacturing and maintenance, ATEQ has developed a complete range of products and customized hardware and software solutions, adapted to all industry requirements: pneumatic, electric and electronic safety testing systems.

More than 20 engineers work all year long to improve the measurement quality of ATEQ's systems and create the best Aviation test tools in the industry, from design to production.

ATEQ Aviation is a division of ATEQ Group the number one supplier of automatic leak testing machines and leak test systems for assembly lines and laboratories. With more than 46 years of experience and thanks to its presence in 40 countries, ATEQ is servicing more than 5 000 customers worldwide. Learn more about ATEQ at www.atdq-leaktesting.com
